

A Federal Anti-Lynching Law

Shortly after President Roosevelt had delivered, in person, his annual message to Congress at a joint session in the House, at the opening of the Seventy-third Congress, several days ago, six anti-lynching bills were introduced. The House heard four and two were introduced to the Senate. The Negro

ANTI-FAKE-LYNCHING-BILL

Sens. Kamala Harris, Corey Booker, and Tim Scott successfully passed legislation that will make lynching a hate crime. It now heads to the House.

PEOPLE SHOULD BE ASHAMED! To be associated with a government and officials that cares for only certain people in this day and age.

THESE are wicked people that steal your money and make laws like "anti-lynching" in this day and age of know lynching but the fake lynching's from TV productions about history, and by an gay crises actor who is related to the government-official who entered the anti-lynching bill to get it pass.

They will be shamed along with all that signed the bill without JUDGMENT. They will need a new job.

Government-officials that make laws for filthy lucre and with KNOW right judgment are the only ones that will be lynched by rabid-crazed-people when they find out the lies you government-officials have been leading the people to BELIEVE! When they start to judge what you are doing and exposing your lies.

Only in the USofA you can fake a lynching and not go to #prison or lose your job. You get the big prize and run for president.

THAT IS BULLSHIT AT ITS SMELLIEST FROM USofA.

The DOCTRINE-KILLER will shame them all, very badly, that are leading people to believe lies against GOD. This is before the DOCTRINE-KILLER throws them into hell

those that will not repent of the bullshit doctrine (believe-a-lie, we will not die).
